Dr. Boutte,

I just can't say enough about this wonderful place and it's amazing staff! I'm a weekly fixture at the MedSpa where I get the BEST massage from Margaret and luxurious facials by the talented Jaunatta. Being disabled and saddled w chronic pain(8 spinal surgeries in 6 years)this wonderful place has given me a new lease on my physical and mental well being. The reception staff is exemplary...the delightful Patricia, Cynthia the manager and all are warm, friendly &, accommodating. Dr. Boutte is a treasure for skincare. She is knowledgeable, non-predatory (like others in this field).I was immediately struck by how it was like talking to an old friend upon meeting her. After living in L.A. for 12 years I can say without reservation this place is a jewel in the realm of blissful body/face/dermatological care.

Thanks so much,

Dr. Boutte,

Thank you and your team for the great service. My progress in the last six months has been amazing. The movement I now have in my arms and the way I look in my clothes make me feel so much better and I will use those weights we talked about.

It is a pleasure to know you and to use your services to enhance my lifestyle and health.

Dear Dr. Boutte,

I want you to know that I am beyond delighted with my results from SmartLipo! After a month, Ms. Lee said I lost 7&1/2 inches off of my waist. Wow! I look like a Barbie doll. You are gifted surgeon. I never imagined the results could be so dramatic. I have read on the RealSelf.com website about so many issues some people have...lumpiness, bruising, unevenness, excessive swelling to name a few...I had none of these problems and I know it is completely due to your skills as a surgeon. THANK YOU!!!!

Dr. Boutte:

First, let me say you are amazing. Second, let me reiterate, YOU ARE AMAZING!! On March 4, I had my first SmartLipo procedure in your very capable hands. You took this 40 something year old body and turned it into the me I've always wanted. I believe I'd give most 30 somethings a run for their money now....and a lot of 20 somethings too! I appreciate everything you've done for me and my self confidence is at a whole new high. I was a little skeptical about the results and a lot nervous about the surgery, but you have made a believer out of me. Surgery was the best experience I could have wanted. Your warmth, professionalism, and knowledge put me at ease and it would be remiss of me to not address your post-op attention and care. No doctor has ever provided me with their personal phone number and responded to each and every text message I had regarding my post-op experiences. You go above and beyond when it comes to your patients. It is truly refreshing to have a doctor who really cares and takes time out of her evenings and weekends to respond to text messages.

Dr. Boutte, I have absolutely no regrets about my procedure and I am constantly bragging about you to my friends. After they have seen my "before and after" pics, quite a few have decided that they will come to see you. I believe two or three have already scheduled consultations. There is no one that I would trust more with this body. As a dermatologist and a cosmetic surgeon, you are the absolute best and I am so thankful for what you've done for me in both areas. Love you much!! Keep up the great work. You are truly a blessing!

"I am so pleased with my results. I respect the team at Dr. Boutte's office. You go in for your free consultation and Dr. Boutte is friendly, personal and honest with you. This is a procedure that works!!! I was back at work 5 days after my procedures. I had a lot done and the first 3 days are not fun days. It isn't painful bad; just you have to deal with the leaking. Yuck. YET SO WORTH IT!

You have to change the bandages, and you can do it by yourself, but a female friend is helpful. The compression garment is VITAL! Don't do this if you are not willing to do your part....

The first week, use the velcro stretch things they give you. Do your homework on line and find garments that you can live in 22 hours a day. Again, it is so worth it. The garments I got were from Make Me Heal. Once on I can wear till time to take off. I no longer have my huge lower gut that made me look awful, my arms don't look like sausages, and my inner thighs now make my pants wear better!!!

I have done my part and when I saw my pictures I was floored!!! So worth the investment and little inconvenience."

Dr. Boutte,

I must say that after receiving SmartLipo, it has changed my life completely. I am now able to wear my shirt tucked into my pants without the unsightly bulge in my stomach. It has caused my self confidence to rise to a level way above my expectation.

What I have also discovered by having this procedure done, is that it is not a quick weight loss plan but a pathway to amazing results, when coupled with exercise and a healthy diet.

Thank you Dr. Boutte for your contribution.

Dear Dr. Boutte,

I want you to know that having SmartLipo was the best decision and well spent money I've ever spent on myself. I must admit I was a little nervous about the procedure but you and your staff put me at ease and if I had to do it again I wouldn't hesitate. I can't wait to go and buy myself a new bathing suit for my summer trip to Jamaica. For years I have work out and felt pretty good about myself. But struggled in losing the kangaroo pouch. Having SmartLipo on my upper and lower stomach has changed my mind, body and attitude. I have more confidence and pep in my step. My clothes fit much better and drop four inches in my waist. I find myself working out much harder as I see my body changing before my eyes. This was the boost I needed in getting rid of the pouch. My girlfriends can't believe the results and plan on having SmartLipo too. Thank you so much, I feel like a reborn woman.

Dear Dr. Davis-Boutte,

In today's busy and often impersonal world, it gives me great pleasure to write this letter to acknowledge someone who is never too busy and always focused on extending a personal touch to each and every patient. From the first time we met, which was several years ago, I have always been impressed by your unique qualities as a doctor. Although you lead a multi-faceted life, you always relate to each patient and make them feel like the individual they are.

All too often, people come to a doctor's office feeling anxious and even somewhat intimidated. However, after a few minutes in your presence they are transformed into calm and confident patients ready to work in partnership with you to achieve common goals related to their health and well being. Your inviting smile, kind words and gentle bedside manner permeate your professional demeanor. It enables you to provide the comprehensive yet individual medical assessment each patient requires.

Although you make it look easy, I know that the demands of being a successful African American female physician are myriad. Nevertheless, you always find the time and the skill to reassure and provide professional service to each patient.

In closing, I want to extend my "Heartfelt Appreciation" to you for making me feel like a valued member of the Premiere Dermatology & Surgery Family. I salute you for the outstanding professional and personable service you provide to the medical community. Thank You for holding me in such "High Regards". The feeling is definitely mutual. May you continue to provide outstanding medical service to each and every patient. You are truly a "Doctor Of Distinction"!

With Warm Regards,

Grace D. Nelson

My name is Stan and I am a male in my early 30's. I have been pretty active physically since I was in my late teens... I weight train and I also practice two martial arts. I have always been the one to eat right, workout, and always have been pretty strong. Even though I had all these attributes, I could never succeed at my ultimate goal, a flat stomach (preferably a six pack). I gained muscle mass, I lost 20lbs. I ran 3 miles a day in addition to my regular workouts. I always had fat tissue in my stomach and waist area!! I was listening to the radio one day and Dr. Boutte was being interviewed by a local disc jockey. She was explaining a procedure called SmartLipo. After her interview, I thought to myself, "why not try it, nothing else has worked". So I went in for a consultation. I spoke with Dr. Boutte directly. She was very informative and patient with me. I was reluctant at first, after all this is stuff that women do, right? I was very wrong.... I went through with the procedure, and it was one of the best decisions of my life. I not only have a flat stomach, but I have a six pack!! THANK YOU SO MUCH DR. BOUTTE!!!

"You have my personal permission to post email and photos on your website"

Dear Dr Boutte,

I am happy to become a part of Premier Dermatology Family. I am very satisfied with your staff. I was very excited to become a patient with a Doctor who has a down to Earth Personality. We need more **Windell Davis Boutte, M.D.** to make our mind and body relaxed. She tells you what she can make happen straight up and how long it will take. I am very excited to see myself in six Months. Dr. Boutte never said I can give you 100% but I can get you as close as I can. Being true is all a patient wants to hear from her Doctor. Looking forward to seeing your bright smile and our next project.

Love
KJ

Hello Premier Team,

Dr. Boutte and Ursula, I just wanted to thank you both for a wonderful experience at your exceptional facility. Ursula you were so great with assisting me from day one and I appreciate your continued support. I thank you for such great customer service and for having such a great rapport. I truly felt like family instead of a patient.

As for the results, they are amazing. I will not lie; at first, I thought you were evil to put me in such a contraption Ursula (the body suit). I thought a man that didn't like women with curves created it and that it was pure evil. However, Dr. Boutte's words stayed in my mind "hang in there and you will see your investment pay off". It has been just over a week now and I thought I would never ever use that 3rd row of hooks but here I sit, buckled away on the 3rd row. It is not uncomfortable anymore and I see amazing results already.

Thank you again and God Bless!

P.S. Ursula I think I need a smaller body suit, as I said I'm already on the 3rd row ☐

Sincerely a **very** satisfied patient,

V D

One more thing, a good friend of mine will be contacting you since all I do is brag about ya'lls outstanding work. Her name is JK...Ursula please take good care of her.
